- History of the barn
 - Our barn is on the historical register and was a real working dairy barn up until 1971.
 - We also reused as much of the original wood as we could.
 - Silo bars were built from the original silo that was up by the flag, used for storing grain
 - The head table was built from the same silo lumber
 - Hayloft floor was removed and used as the first-floor wall
 - The desert table is the original workbench that was used in the milk room
 - We even reused all the original floor joists
 - The amazing ceiling inside the barn is the original ceiling
 - The rope on the cross is from the rope used on the track on the ceiling of the barn
 - Couples have positively commented on the outside color of the barn being white vs. the traditional red
 - We also have a lot of customizable space so you can highlight your uniqueness such as lounge areas and indoor games...indoor FUN
 - We are pet friendly
- We are 1 of the safest barns in MNI!
 - We understand that safety is not the first thing on your mind as you are searching for a venue. However, we have thought about it since you are going to have your family and closest friends in our barn. We are 100% up to code in case of collapse or fire. *You cannot put a price on your loved one's lives!*
 - We are structurally sound to hold people on our second-floor mezzanine and decks
 - Most barns have not reengineered the hayloft floor to hold people and could very easily collapse.
 - Our decks have been over engineered and can hold a semi-truck on them
 - We have push plates on all our exit doors for easy exit in case of emergency.
 - We have emergency exit lights that will light up if the power goes out.
 - We have a sprinkler system.
 - We have a sprinkler system with a 20,000-gallon tank buried full of water. This system is always monitored by our sprinkler company.

- We have a huge generator and 3 phase power just in case we lose power
 - If the power goes out, we would be required to call off your wedding immediately. You will not have running water, flushing toilets, the DJ will not be able to play, no lights, and no sprinkler system.
 - Because we have a generator, we can stay open and everything will continue to run as normal and you and your guests can keep the FUN going!!

- Venue Pricing: _subject to change
 - 2023-2025
 - Saturday \$10,295
 - Friday (Thursday prior FREE) \$10,295
